Blender

Blender is an open source 3D creation suite. It supports the entirety of the 3D pipeline—modeling, rigging, animation, simulation, rendering, compositing and motion tracking, even video editing and game creation.

Procreate

Procreate is an award-winning illustration, sketching, and painting app made exclusively for the iPad. With abundant customizable features, expandability, and an attractive and intuitive user experience, anyone can create 2D and 3D paintings, drawings, hand lettering, and animations.

Makey Makey Classic

Makey Makey is an invention kit designed to connect everyday objects to computer keys. Using a circuit board, alligator clips, and a USB cable, the toy uses closed loop electrical signals to send the computer either a keyboard stroke or mouse click signal. This function allows the Makey Makey to work with any computer program or webpage that accepts keyboard or mouse click.

Soldering Station

Hakko FX888D Digital Soldering Iron Station. Features: Variable Temperature, With Stand; Power Source: Electric; Tip Style: Metal Tip

Hue Animation Studio

HUE Animation Studio contains everything that a budding animator needs to create stop motion animation videos. The kit includes: The HUE HD camera, a flexible plug and play USB camera with built-in microphone.

Cricut Maker Cutting Machine

Cut hundreds of materials with effortless precision and offers the widest range of tools for cutting, scoring, writing & adding decorative effects with materials like cardstock, vinyl, iron-on, poster board, fabric & more. MLS Studios also has light tables, a heat press, mug press, and weeding tools for customer use.
