

State of Oklahoma
Transfer Agreement for Income Tax,
Rural Electric Cooperatives Tax,
or Insurance Premium Tax Credit

FORM **572**
Revised 2021

(See a list of transferable credits, the statutory reference and information on the Tax Credit Moratorium on pages 2 and 3)

On this ____ day of _____, 20 ____, the **transferor** identified below, for good and valuable consideration, hereby sells, conveys and transfers to the **transferee**, also identified below, \$ _____ of certain tax credits, ("**credits**") earned under the applicable Oklahoma Statute (OS). The transferred **credits** were originally allowed to the **transferor** in the tax year(s) of _____ (**allowed year[s]**). Enter the tax year(s) for which the credit may be claimed _____. Enclose a copy of the original Oklahoma Tax Commission (OTC) acknowledgment of credits issued to the **transferor**. If the current **transferor** obtained the credits by prior transfer, also enclose a copy of the prior transfer agreement.

Transferable Credits for Income Tax, Rural Electric Cooperatives Tax, or Insurance Premium Tax

Notice

Tax credits transferred or allocated must be reported on OTC Form 569. Failure to file Form 569 will result in the affected credits being denied by the OTC pursuant to 68 OS Sec. 2357.1A-2.

Tax Credit Moratorium

Many Oklahoma credits available against corporate and individual income taxes are subject to a moratorium.

The Coal Credit, the Credit for Manufacturers of Small Wind Turbines, the Credit for the Construction of Energy Efficient Homes and the Credit for Railroad Modernization are subject to a two-year moratorium from July 1, 2010, through June 30, 2012. These credits cannot be established during the moratorium.

The Credit for Qualified Rehabilitation Expenditures is also subject to the two-year moratorium from July 1, 2010, through June 30, 2012; however, credits can be established during the moratorium. Any credit established during this period will accrue and may not be claimed until tax year 2012.

The Credit for Electricity Generated by Zero-Emission Facilities is subject to a one-year moratorium from July 1, 2010, through June 30, 2011. Credits can be established during the moratorium; however, any credits established will accrue and may not be claimed until tax year 2012.

Note: Credits established before July 1, 2010, are eligible to be transferred under normal transfer provisions.

The following is a list of the credits that are transferable along with the statutory reference.

Coal Credit (For credits earned prior to January 1, 2014)

68 OS Sec. 2357.11 and Rule 710:50-15-76

For tax years beginning on or after January 1, 1993, and ending on or before December 31, 2021, Section 2357.11(B) provides for a coal credit, for the purchase of Oklahoma-mined coal, to businesses providing water, heat, light or power from coal to the citizens of Oklahoma or to those which burn coal to generate heat, light or power for use in manufacturing operations in Oklahoma. For the period of July 1, 2006, through December 31, 2006, and for tax years beginning on or after January 1, 2007, and ending on or before December 31, 2021, an additional credit is allowed for Oklahoma-mined coal purchased. However, the additional credit may not be claimed or transferred prior to January 1, 2008. Section 2357.11(C) provides, for tax years beginning on or after January 1, 1995, and ending on or before December 31, 2005, and for the period of January 1, 2006, through June 30, 2006, an additional credit to those businesses referred to in Section 2357.11(B) which purchased at least 750,000 tons of Oklahoma-mined coal in the tax year.

For tax years beginning on or after January 1, 2001, and ending on or before December 31, 2021, Section 2357.11(D) provides for a coal credit to businesses primarily engaged in mining, producing or extracting coal in this state. A valid permit issued by the Oklahoma Department of Mines must be held. Section 2357.11(E) provides, for tax years beginning on or after January 1, 2001, and ending on or before December 31, 2005, and for the period of January 1, 2006, through June 30, 2006, an additional credit to such businesses that mine, produce or extract coal from thin seams, provided such coal has not been sold to any consumer who purchases at least 750,000 tons of Oklahoma-mined coal in the tax year. Section 2357.11(F) provides, for the period July 1, 2005, through June 30, 2006, an additional credit to such businesses that mine, produce or extract coal from thin seams. None of the credits, provided for in this paragraph, will be allowed for coal mined, produced or extracted in any month in which the average price of coal is \$45 (for months through June 30, 2006) or \$68 (for months beginning July 1, 2006) or more per ton, excluding freight charges.

Any credit earned prior to January 1, 2014, which was allowed but not used will have a five-year carryover provision following the year of qualification. The credits allowed pursuant to Sections 2357.11 (B), (C), (D), and (E) are freely transferable to any taxpayer and at any time, after January 1, 2002, but not later than December 31, 2013, during the five years following the year of qualification provided the additional credit allowed pursuant to Section 2357.11(B) is freely transferable at any time, after January 1, 2008, but not later than December 31, 2013, during the five years following the year of qualification. The credit allowed pursuant to Section 2357.11 (F) is freely transferable to any taxpayer and at any time after July 1, 2006, but not later than December 31, 2013, during the five years following the year of qualification. Enclose, with the Form 572, a Tax Commission acknowledgment of credits earned. Note: This credit, upon election of the taxpayer, may be claimed as a payment or prepayment of tax or as an estimated tax payment. If this election is made, the credit should be claimed on Form 511-CR, line 2.

Transferable Credits for Income Tax, Rural Electric Cooperatives Tax, or Insurance Premium Tax

(continued)

Credit for Qualified Rehabilitation Expenditures

68 OS Sec. 2357.41 and Rule 710:50-15-108

For tax years beginning after December 31, 2000, a credit is available for qualified rehabilitation expenditures incurred with any certified historic hotel or historic newspaper plant building located in an increment or incentive district —or— for qualified rehabilitation expenditures incurred after January 1, 2006, in connection with any certified historic structure. The credit may be freely transferred at any time during the five years following the year of qualification. On or after January 1, 2009, if this credit which has been transferred is subsequently reduced as the result of an adjustment by the Internal Revenue Service, OTC, or any other applicable government agency, only the transferor originally allowed the credit and not any subsequent transferee of the credit, will be held liable to repay any amount of disallowed credit. Any unused credit may be carried over for a period not to exceed ten years following the qualified expenditures.

Credit for Electricity Generated by Zero-Emission Facilities

(For credits generated prior to January 1, 2014)

68 OS Sec. 2357.32A

For facilities placed in operation on or after January 1, 2003, and before January 1, 2021, a credit is available for the production and sale of electricity generated by zero-emission facilities located in this state. The sale must be to an unrelated person to qualify for this credit. The credit may be claimed during a ten-year period following the date the facility is placed in operation. Credits generated prior to January 1, 2014, are freely transferable at any time during the ten years following the year of qualification. For credits generated prior to January 1, 2014, any unused credit may be carried over for a period not to exceed ten years following the year of qualification.

Credit for Manufacturers of Small Wind Turbines

68 OS Sec. 2357.32B and Rule 710:50-15-92

For tax years beginning on or after January 1, 2003, and ending on or before December 31, 2012, a credit is available for Oklahoma manufacturers of advanced small wind turbine products, including rotor blade and alternator fabrication. Any credit allowed may only be claimed on or after July 1 following the calendar year of qualification. The credit is freely transferable at any time during the ten years following the year of qualification. Any unused credit may be carried over for a period not to exceed ten years following the year of qualification. NOTE: This credit, upon election of the taxpayer, may be claimed as a payment or prepayment of tax or as an estimated tax payment on or after July 1 of the calendar year following the year of qualification. If this election is made, the credit should be claimed on Form 511-CR.

Credit for Railroad Modernization

68 OS Sec. 2357.104 and Rule 710:50-15-103

For tax years beginning after December 31, 2005, a credit is available for Class II or Class III railroad's qualified railroad reconstruction or replacement expenditures. The credit may be freely transferred at any time during the five years following the year of qualification. Any unused credit may be carried over for a period not to exceed five years following the year of qualification.
